

Excellence throughout Innovation

# Processing and Packaging

Please review the attached information for further details on this innovative solution. We invite you to feel free to call me if you require any clarification or additional information.

We will contact you shortly to discuss the enclosed in greater detail.

Thank you for considering KARASANAT Inc. as a solution to meet your Perfect Solution in Packaging and Processing. Karasanat is the undisputed industry leader and has set the industry standards for machines and reliability that is unsurpassed.

As a pioneer in the market, Karasanat is the preferred supplier of many companies in and outside of the country. Using a wide range of machines that have been developed for specific industry applications with their exclusive design, worry-free Method, operator-friendly interface and trouble free, the machines are unique while competitive prices and having the flexibility to make changes seamlessly which speaks to the solutions' versatility.

# Karasanat, Inc.

## Organization

Over the course of Karasanat three decades in business, packaging and processing machines have become important in economy. Technology companies have become global pacesetters, making technical advances at a prodigious rate — always driving the industry to deliver more and more, faster and faster.

However, “technology for technology's sake” is not the way we do business at Karasanat. Our history is marked by a commitment to innovation that's truly useful for customers — putting the real needs of people ahead of technical one-upmanship. Karasanat founder Alireza Salehi has always maintained that “customers should come first, at every stage of a company's activities.”

We believe our company history bears that out.

Karasanat establishes in Tehran, Iran in early 1981 and introduces its first proprietary machine: Ribbon Blender for Iran Daroo.

## Manufacturing Equipment

Karasanat is well equipped with a wide range of machine tools for parts manufacturing and sheet metal working for covers, hoppers, and stainless steels.

Experienced designers are the reasons for innovation and quality in the company's products. The R&D capability and technical strength have won acclamation and appreciation among people of the same trade home and abroad.

## Certificates:

- Certificate of Industrial Activities, Ministry of industries.
